A complete text of the ordinance is available in the Commissioners' Office.

D063192A 2. An Emergency Services Communication Committee has been formed that is sifting through all the grants and equipment requests to create a master plan. Ms. Martin is obtaining copies of the current grants and will forward them to Day Wireless who will map out a plan in a systematic manner for the next year. For example, the microwave equipment Malden is receiving can also benefit Oakesdale and Tekoa. In other instances, entities have purchased equipment that does not mesh with Whitcom.

D063192B 3. The Committee is also looking at creating a pool of funds specifically for infrastructure maintenance countywide. Homeland Security funds will purchase the necessary equipment to make this process function. Emergency Management will not deal with private individuals on this project, only vendors like Day Wireless. In the long run, it is best for the system. Once Day Wireless has developed a plan, the Committee will meet with them again. Each entity would be responsible for maintenance and operation of equipment housed within their own jurisdiction.

D063192C 4. Emergency Management sold the old jeep on their inventory for \$2,500. She is considering purchasing a van for \$3,000 for hauling equipment to emergency locations. In the past, Commissioner Partch commented the Council on Aging has given their old vans to assisted care facilities. He will check into the possibility of Council on Aging transferring an old van to Emergency Management.
